Amazing Pet Grooming Cambridge
Ontario, Canada

Freelance Web Developer
06/2023 - 02/2024

- URL: https://www.amazingpetgrooming.ca/
- UI/UX Redesign & Development: Spearheaded the complete redesign of the website's user interface to modernize aesthetics and enhance overall user experience. Applied best practices in UI/UX design, leading to a more intuitive and engaging interface for users
- Front-End Engineering: Engineered the website's front end using React JS, showcasing proficiency in developing scalable and responsive web applications. Implemented responsive design principles, ensuring optimal performance and seamless user experience across different devices and platforms
- Client Collaboration & Requirement Analysis: Actively collaborated with the client to gather detailed requirements, ensuring alignment with business goals and user needs. Established effective communication channels for regular progress updates and incorporated client feedback iteratively, demonstrating strong client management and stakeholder engagement skills
- Agile Development & Continuous Integration: Utilized Agile development methodologies to manage the project lifecycle, enhancing adaptability and responsiveness to changing requirements. Employed Git for version control and continuous integration, reinforcing best practices in software development and collaboration
- Technologies & Tools: Proficient use of a diverse tech stack including React JS, GSAP for advanced web animations, Figma for design conceptualization, Tailwind CSS for streamlined styling, and Git for version control

Colegio Normal Superior de Pitalito
Bogotá, Colombia

Freelance Mobile Developer
01/2023 - 02/2024

- UI/UX Design: Led the design process using Figma, focusing on creating an intuitive and user-friendly interface tailored for educational settings
- Frontend and Backend Engineering: Played a dual role in coding both frontend and backend functionalities, utilizing React Native for robust and scalable mobile app development
- Requirement Gathering: Engaged closely with the school administration to understand their needs and objectives, ensuring the app aligned with educational goals and user expectations
- Continuous Feedback Integration: Established regular communication channels for updates and feedback, adapting features and design iteratively to meet client satisfaction
- Agile Methodology: Employed Agile practices for efficient project management, ensuring flexibility and responsiveness to evolving project requirements
- Version Control: Utilized Git for maintaining code integrity and facilitating collaborative development efforts
- React Native & Expo: Demonstrated proficiency in using React Native and Expo for cross-platform mobile app development, ensuring consistent performance across different devices
- Firebase: Integrated Firebase for backend services, including database management, authentication, and cloud storage
- Figma: Expertly used Figma for designing visually appealing and functional UI components
